These full body harnesses can alternatively be equipped with a lanyard type Band B3, a lanyard with an integrated energy absorber type BFD 3 and / or a high-visibility warning vest.
The full body harnesses were tested for nominal loads up to 136 kg. Under certain conditions and if the full body harness will be equipped with the lanyard type BFD 3 (maximum rated load 100 kg), it can also intended to be used in a horizontal arrangement, if a loading over an edge is to be expected in case of a fall.
Intended purpose:
As body holding device in a fall protection system of the personal fall protection equipment.

This product is a personal protective equipment of category III in accordance with the regulation (EU) 2016/425. This EU Type-Examination Certificate authorises the placement of the above mentioned product on the market on the condition that control measures according to module C2 (Annex VII) or module D (Annex VIII) are taken. The product tested complies with the essential requirements of Annex II.

The present certificate is valid until and including: **2024-04-17**

Further provisions concerning the validity, the extension of the validity and other conditions are laid down in the Rules of Procedure for Testing and Certification.
